### Swane's Wholesale Winter Rose Orders

#### Terms & Conditions

***Prices do not include GST***

Swane's winter roses spend up to 24 months in the field before harvest. After harvest, each rose plant is graded according to Swane's quality standards.

**To ensure winter roses establish well, the following handling & growing conditions must be provided:**

- Ensure roses remain wet during the handling, potting/planting process.
- Unpack immediately and soak to rehydrate for 1 - 24 hours.
- Bounce prune - cut each stem back to within 100mm of the bud union.
- pH test the soil or potting mix. Tolerable range is 6.5 - 7 for roses.
- Plant in a slurry to avoid creating dry soil zones near roots.
- Position roses to receive a minimum of 6 hours uninterrupted sunshine.
- Roses potted or planted at the same time may bud and grow at different rates. Please contact Swane's for advice about any plants that seem slow to put on new growth.

#### Credit / Replacement Claims

Swane's offers a like for like replacement or account credit for winter roses that fail to grow only when the handling and growing conditions described above have been adhered to. Swane's will not credit roses potted into any growing media that does not meet Australian Standards.

In the event of a plant failing to grow, first talk to a Swane's Representative on 02 9651 1777 and send an email, with photos attached, to [wholesale@swanes.com](mailto:wholesale@swanes.com)

To activate a credit or replacement, Swane's requires the return of the faulty plant along with soil or growing media samples for testing. Please return these only when instructed to do so by a Swane's Representative.

A completed claim form will be required to activate the credit / replacement offer. This form will stipulate the requirements for each claim. A copy of your business's consumer guarantee policy will need to be supplied if replacing plants on behalf of a customer.

Swane's will always require the plants to be returned and will not handle enquiries directly from your customers.

Your Swane's account will be credited or a replacement plant provided in the season of purchase, or the next winter season, depending on availability.

Return freight or mailing charges are the responsibility of the purchaser.
